WORK EXPERIENCE

Accenture UK Programme Job Simulation on Forage | Link   **Mar 2025 – July 2025**

- Collaborated with senior mentors to explore technology trends, solve client challenges, and cloud solutions.
- Delivered impactful presentations, enhancing technical, analytical, and communication skills. Node package was build during this program.

Deloitte Australia Technology Job Simulation on Forage | Link   **Feb 2025 – July 2025**

- Completed a job simulation involving development and coding with build MERN stack quiz application.

Google Play I/O Program | Link   **Sept 2024 – Feb 2025**

- Planning, coding, building, testing and then publish apps on Google Play with regular updates.

PROJECTS

Full Stack Chat Application with Admin Pannel | Link   **Feb 2024 – Sept 2024**

- This is a MERN stack and Socket.io-based chat app requires user registration and offers features like notes saving, video calls, file sharing, group creation, and real-time location sharing.
- It includes a secure admin dashboard for managing weekly chats, removing unknown users, and handling data and files. The app is fully responsive and works across all devices, with an Android version available on the Play Store.
- A new version is under development, offering advanced features for verified users, integrated with an AI agent and secure cloud storage with more tools.

Image selling/Art selling app | Link   **Sept 2023 – Jan 2024**

- This is an next.js application where clients can register to buy, while sellers upload and sell their Art, adjusting prices based on resolution and image quality.

Advanced NoteKeeper| Link   **Feb 2023 – July 2023**

- A note keeper app that allows users to save and edit notes in plain text, HTML, CSS, JS, JSON and other formats with full CRUD functionality.
- This app supports file import/export in multiple text formats with syntax highlighting, pinned notes for quick access and customizable dark/light themes, offering a seamless and flexible note management experience across devices..

Todo & Notes app | Link   **Oct 2022 – Dec 2022**

- An Android application to access features like adding tasks, saving notes, and using a calculator. But pro users can access different professional tools with games and publish their own web apps. Other pro users can also view publish apps and can use freequently.
